

## Tidewater Drive Closed to Southbound Traffic

Beginning as early as Monday, January 11, the third phase of work will begin on the Tidewater Drive underpass. The northbound lanes will reopen to traffic, and the southbound lanes will be closed from the underpass to Lindenwood Avenue to allow for construction. The project is expected to be completed in mid-April, weather conditions permitting. Southbound traffic will be detoured from Tidewater Drive as follows: Right on Lafayette Boulevard, left on 26th Street, left on Church Street, left on Princess Anne Road, right on Tidewater Drive.
