

**Virginia Beach Boulevard Widening Project Update**— The widening of Virginia Beach Boulevard from Jett Street to Briar Hill Road continues under VDOT contract, with utility work currently ongoing on the eastbound side of Virginia Beach Boulevard. Driveway entrances and pavement work on the eastbound side will be installed in the upcoming months.

In late April 2009, work will switch to construction of the westbound lanes of Virginia Beach Boulevard, requiring traffic pattern changes on Virginia Beach Boulevard and associated utility work on Raby Road.

The project is expected to be completed in late spring 2010.
