NOTE - PLANTING BY OTHERS (NIC) - SHOWN FOR REFERENCE ONLY.

Utility Note:

All surface features such as sewer manhole covers, valve box covers, meter box covers, and sewer cleanout lids are to be reestablished per utility notes.

General Notes:

PVC sleeves shall be installed in all areas where irrigation piping crosses under hardscape. The sleeves shall be twice the size of the irrigation piping to be contained within. Existing walks shall not be sawcut to accommodate proposed irrigation piping. Irrigation layout to be coordinated with path construction.
All surfaces, not paved or designated as a planting bed, should be seeded with annual ryegrass.

CONTACT MISS UTILITY OF VIRGINIA AT LEAST 48 HOURS BEFORE GROUND PENETRATION OR EXCAVATION. 1-800-552-7001

VERTICAL DATUM - ELEVATIONS ARE BASED ON NAVD 88 (92)
