

UPDATE

November 14, 2011

Cottage Line and Bayview Phase 4 Sanitary Sewer and Water Infrastructure Improvements

The existing infrastructure improvement project in your neighborhood is ongoing.

The City's contractor, S.J. Louis Construction, Inc. continues to work along Hillside and Chesapeake Street and will be along Ocean View Avenue very soon. One east bound lane and one west bound lane will be open on the north side of Ocean View Avenue. The existing two east bound lanes on the south side will be closed for construction. Access to driveways and entrances will be maintained **at all times**.

Anticipated completion for the entire project is still by the end of 2012.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction. If you have any questions regarding this project, please do not hesitate to contact the City's on-site construction inspector, Mr. Gary Kimber. He can be reached by cell phone at 646-1659 to respond quickly. You may also contact the project manager, Rick Dempsey, at 664-6719.

The Department of Utilities appreciates your patience during this project and looks forward to providing you with improved water and sewer infrastructure.

Sincerely,

Kenneth Turner, P.E.

Engineering Manager
