**2. Architectural Review Board Design Review Items**

**A. 2700 Block of E. Princess Anne Road-Triangle Park**

Applicant: Recreation, Parks and Open Space (RPOS)

Project Request: Triangle Park safety lighting

Project Summary: The City Planning Commission approved the plan for this park at their November 15, 2018 meeting. CPC had a concern about the lack of lighting, for safety purposes, on the interior of the park. The city parks are open from sun up to sun down. RPOS has submitted a plan with the existing street lighting that surrounds the park. They are wondering if CPC considers the existing lighting acceptable or if they are looking for something more?

**B. 2829 Marlboro Avenue—Resilient Park Pump Station**

Applicant: Christine Morris, Office of Resilience

Project Request: Design review for a new construction pump station

Project Summary: The City Planning Commission approved this project at their January 7, 2019 meeting. The applicant for this project, was in budget meeting the day this was presented to CPC. They have submitted the samples so that you can see the materials that have been approved.
