6. Exceptions to Strict Compliance

In the event that an individual owner-occupant of a residential structure containing from one to four dwelling units cannot obtain the financial resources to pay for the improvements required to bring his property into full compliance with the project rehabilitation standards but is nevertheless willing and able to complete all work needed to satisfy those sections of the rehabilitation standards which protect the public health and safety, then upon application to the Project Coordinator for Ballentine Place Conservation Project, such individual owner-occupants may be given a modified Certificate of Compliance permitting the accomplishment of work less than that which is needed to comply fully with the rehabilitation standards. Re: Proposed Amendments to Conservation
Area and Rehabilitation District Plans

Lady and Gentlemen:

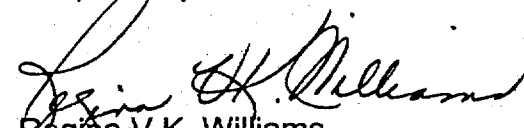

The Norfolk Redevelopment and Housing Authority (NRHA) is proposing to amend the approved Berkley, West Ocean View, and Ballentine Place Conservation Project Plans and the Bayview Rehabilitation District Plan. The proposed changes would enable NRHA to provide financial assistance to owners in cases where the property may not be rehabilitated to full conservation project or rehabilitation district standards. Rehabilitation in these instances would fully address health and safety concerns.

A joint public hearing with the NRHA Board of Commissioners was held on February 1, 2000 to receive public comments on these changes. No comments were received. The proposed changes were approved by the NRHA Commissioners on February 28, 2000, and the Norfolk City Planning Commission on April 13, 2000.

The recommended changes are forwarded to the Council for its consideration. Copies of the approved NRHA resolutions are attached.

Recommendation: Approve resolutions.

Respectfully submitted,

Regina V.K. Williams
City Manager
