# City of Norfolk Architectural Review Board (ARB)

## Application for

## LANDSCAPING

Landscaping applications include any changes to the property that are visible from any public right-of-way. This includes the addition or removal of landscape features not limited to: trees, shrubs, walkways, patios, driveways, landscape beds, lighting, fencing, walls, gates, gazebos, arbors, flagpoles, statuary, and fountains. You do not need to make a landscaping application if you are planting flowers in existing landscape beds; pruning trees; mowing the lawn; replacing walkways and driveways with the same material in the same size footprint; or replacing like plantings with like. These items are considered to be ordinary maintenance on private property. It is recommended that applicants review the: *City of Norfolk Historic District Design Guidelines*; *Code of the City of Norfolk Chapter 45: Trees and Other Vegetation*; and *A Pattern Book for Norfolk Neighborhoods* pages 64-67 (links are listed on next page). Contact the historic preservation staff person at 757/823-1451, for a pre-application meeting to address any questions and inquire as applicable to the scope of work.

The applicant shall provide the following information as applicable to the scope of work being requested in order to facilitate the review of the proposal:

- Description of proposed project
- Photographs of property and surrounding area
- Avoid invasive plant species\*
- A current scaled site plan or survey (should contain existing conditions):
  - North arrow
  - Orientation and approximate location of proposed roads, walks and parking
  - Approximate location of existing structures
- Indicate items that shall be removed
- Indicate added features and their proposed location on the plan
  - Include plant species, scientific and common name, (age of species at planting and estimated height and width of plant at maturity)
- Any other information that would be of value to the ARB in reviewing the project
  - Relationship to adjacent properties
  - Location of berms, hills, culverts, etc. (if applicable)
  - Method of watering/irrigation (if applicable)
- Other materials as requested by planning staff

*If any of your plantings will be in or encroach into the public right-of-way please contact Recreation, Parks and Open Space (RPOS) at 757/823-4023, BEFORE you submit your application to the ARB.*

When planning your project, you may be interested in reviewing Preservation Brief #36 *Protecting Cultural Landscapes: Planning, Treatment and Management of Historic Landscapes* by the National Park Service (APPLICATION)

*The ARB recommends that you meet with your respective civic league or homeowner association BEFORE your scheduled meeting date with the ARB.*

Submit two (2) collated hard copies and one (1) digital copy with the application. **Digital copy must have all the pages in the direction that they will be read (Not separate individual scanned pages/files).** The completed application is due by 12:00 p.m. on the day of the meeting deadline.
