Pilot Bike Loop: W. Olney Road

COMING SOON TO OLNEY ROAD!

From VA Beach Blvd to Colley Ave

Beginning Thursday, September 1, installation of the Pilot Bike Loop on W. Olney Road between Virginia Beach Boulevard/Duke Street and Colley Avenue will continue. Construction work includes the eradication of existing pavement markings, shifts in street centerlines, installation of new pavement markings and flex posts. During installation, on street parking will be removed temporarily in some locations to install pavement markings. Watch for "No Stopping" signs that will be posted 24-48 hours in advance.

Following installation on both sides of Olney Road, on street parking will remain along the curb where it is currently allowed, a bike lane will be adjacent to the parking lane and a thru and left turn lane will be combined into one lane closest to the median on westbound Olney Road at Colonial Avenue as shown below.

The Pilot Bike Loop is a demonstration of new bicycle facilities such as separated and buffered bike lanes, a two-way cycle track, shared lane markings, symbols, and associated bike lane signs, flex-posts, and green paint. For more information visit, www.norfolk.gov and select the "Pilot Bike Loop" icon at the bottom of the main page.
