Background Information

This index is only a guide and streets listed may or may not be complete. Street names were obtained from the digital street centerline file maintained by the Division of Surveys within the Department of Public Works.

The grid numbers associated with each street are graphically depicted on page 28 of this document. Street names may include a pre-directional such as E, W, N, or S, or may be fully spelled out (i.e. East, West, North, or South) depending on how the street name was legally recorded. Street names with a pre-directional will be listed twice in the document, once for the name with the pre-direction and then again alphabetically ignoring the pre-direction. For example *W Brambleton Avenue* will be listed under the W's and also the B's.
