Sanitary Sewer and Water Infrastructure Improvements Planned for Wards Corner Neighborhood

June 27, 2018

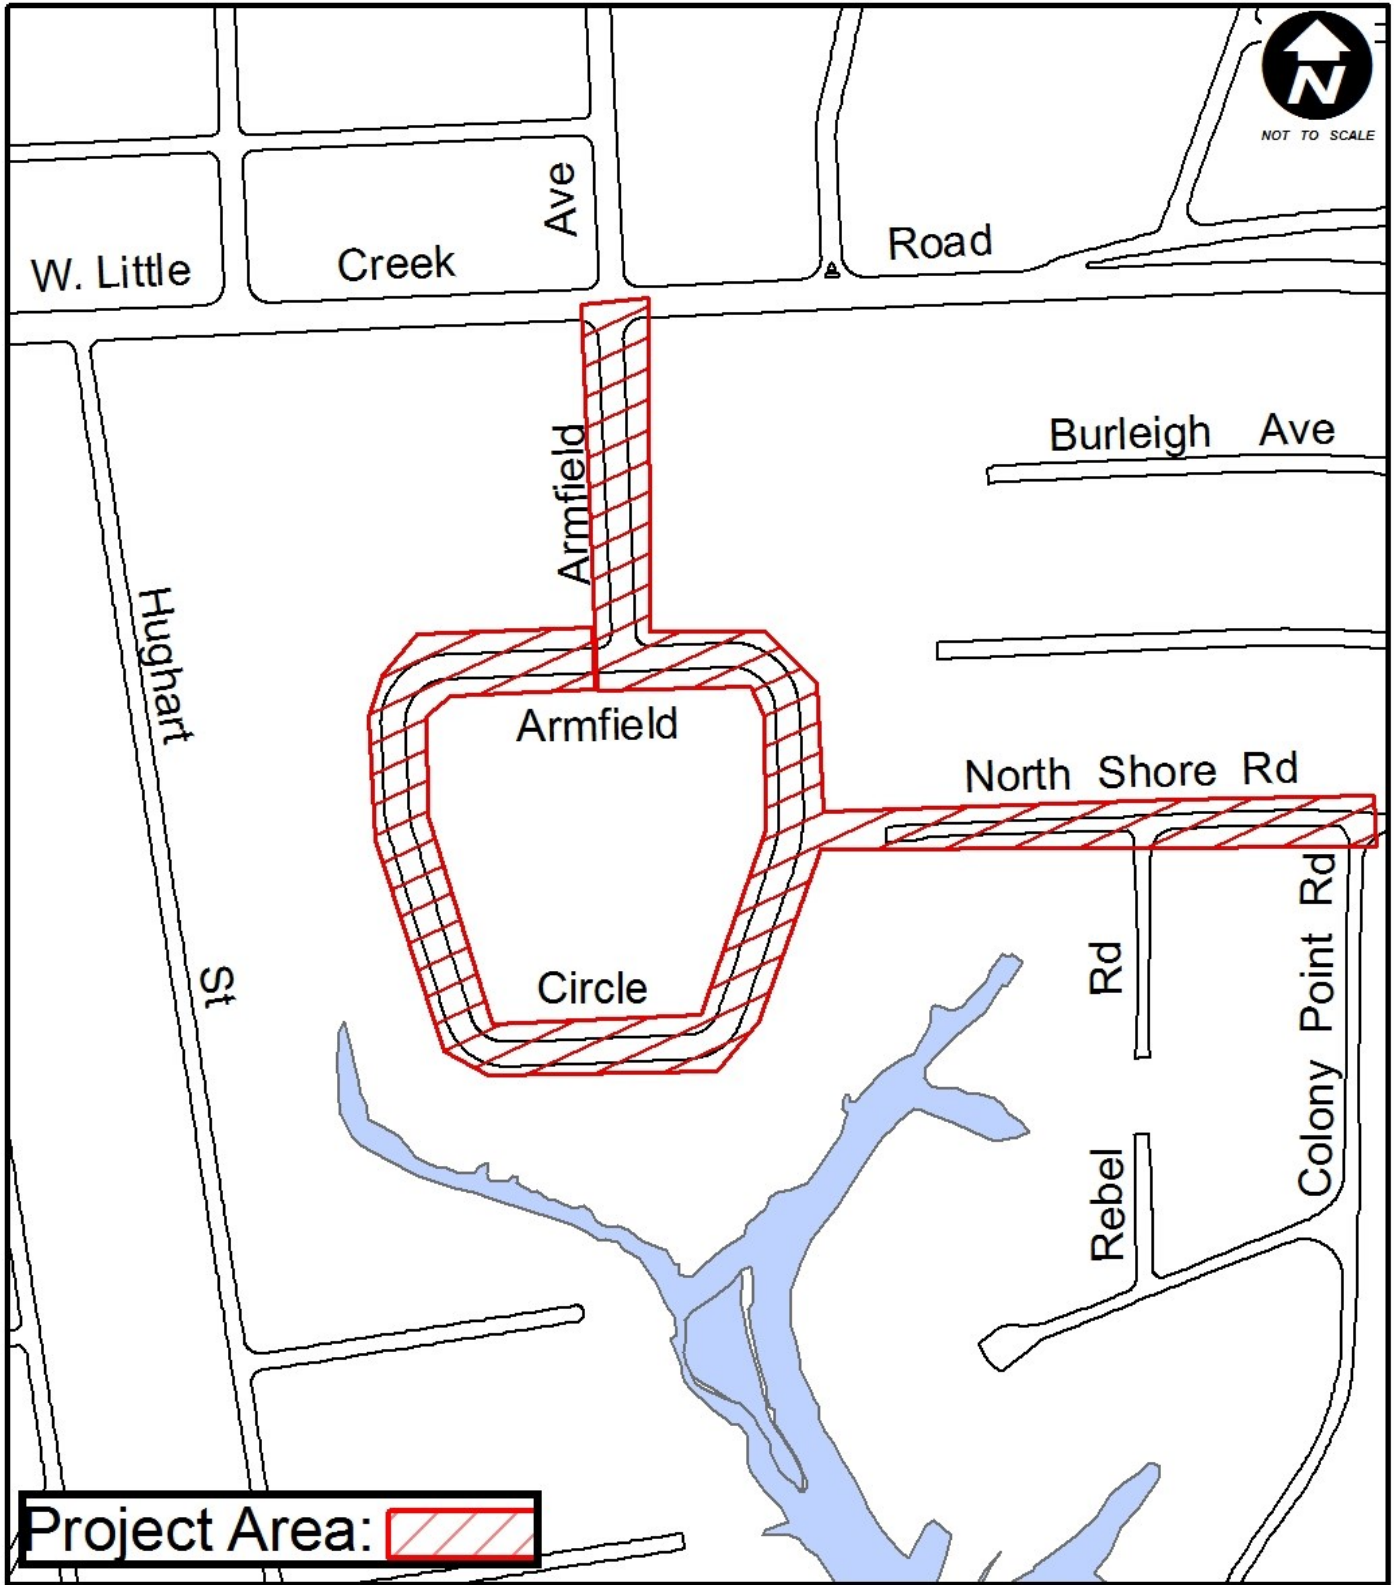

The City of Norfolk's Department of Utilities is planning a project to replace aging water and sanitary sewer infrastructure in your neighborhood. The project (area shown on the map on the back) will include new sanitary sewer and water pipes and fully resurfaced streets.

Project Details:

- Consultant: Michael Baker International
- In design phase; construction has not yet been scheduled
- Survey crews will work in project area over next few months.
- Crews may need access to the exterior of your property to identify property boundaries, easements and surface features.
- **At no time will surveyors request to enter your home.**
- We will provide an update when construction has been scheduled.

If at any time you have questions or concerns, please do not hesitate to contact the project manager, Rick Dempsey, at 757-664-6719.

Visit www.norfolk.gov/utilities for more information.
