The image contains a map with various streets and their sweeping schedules. The map includes a legend for street curb types, with curbs represented in black and no curbs in red. The map also has a sweeping schedule table that outlines the sweeping pattern for different weeks, including the number of streets to be swept and the frequency of sweeping.

The sweeping schedule table has columns for Week, Monday through Friday, and the number of streets to be swept. The table includes specific days and numbers of streets, such as 'W-3 (43m)' for Monday, 'S-1 (42m)' for Tuesday, and so on. The total miles swept for each week are also provided, with notations for weekly and bi-weekly sweeping.

The map and table together provide a comprehensive view of the street sweeping logistics for the area.
