

HAGUE STORMWATER WETLAND

LOCATION

W. Brambleton Avenue and Colley Avenue

PROJECT INFORMATION

This project will construct a basin in a low lying open space area as part of a larger restoration of the Hague Watershed. The stormwater wetland will improve water quality, stabilize eroding banks, establish a habitat for native wildlife and enhance the overall visual aesthetic of the community.

SCOPE OF WORK

- Design and construction of wetland islands with outfall riser, shallow and deep pools.
- Design and construction of footpath, ornamental trees and shrubs.
