

Granby Street and Bayview Boulevard Intersection Improvements (UPC 108730)

Location

Granby Street & Bayview Boulevard

Project Benefits

This completed project improved safety and facilitated more efficient traffic flow through the intersection.

Scope of Work

- New traffic signals
- Signalized pedestrian crosswalks on all sides of the intersection
- New ADA-compliant pedestrian curb ramps
- Extended southbound left turn lane
- Curb adjustments to better accommodate turning movements
- Minor adjustments to lane alignments to improve traffic flow
- Enhanced signal operations

Project Status

Complete

Project Schedule

- Construction start: January 2019
- Substantial completion: August 2019

Project Funding

Revenue Sharing

\$635,000 (\$250,000 State, \$385,000 Local)

Construction Impacts

- Two-way traffic was maintained on Granby St and Bayview Blvd at all times.
- Pedestrian detours were put in place to provide safe passage for pedestrians through the intersection.

Civic Engagement

- Ward 1 (Councilman Martin Thomas)
- Superward 6 (Councilwoman Andria McClellan)
- Northside Civic League
