## 4. Important Information and Safety Briefing

- There is currently no vaccine to protect against, and no specific antiviral treatment for, COVID-19.
- The virus is mainly spread through respiratory droplets (coughing, sneezing...).
- It CAN survive on surfaces for a short period and can be spread by asymptomatic hosts or 2 days prior to symptoms.
- There are not enough tests to check everybody, nor is there a need for everyone to be seen or tested for mild symptoms.

A Major Disaster Declaration has been declared / approved for Virginia (DR-412): <https://www.fema.gov/disaster/4512>

CDC has identified Virginia as a state with wide-spread community transmission.

Governor Ralph Northam's [Executive Order 63, requiring face coverings while inside buildings](#), is still in effect.

On July 1, Virginia will move into [Phase Three of Governor Northam's Forward Virginia Plan](#). Phase Three includes:

- Gatherings of up to 250 people can occur
- Capacity restrictions on restaurants and non-essential retail lifted with physical distancing still required
- Zoos, museums, and other entertainment places can open with 50% with capacity with a max of 1000 people
- Gym and fitness centers can go up to 75% of capacity, up from 30% in phase 2
- Hair salons and other personal grooming will no longer be appointment only; but, will still need to follow social distance guidelines
- Childcare services can open
- Pools can open at 75% capacity with social distancing
- Recreation sports can continue with social distancing
- Overnight summer camps will still be closed

Currently, city buildings are closed to the public until further notice with only mission-critical staff reporting.

Safety precautions to take include physical distancing and especially practicing regular good hygiene habits such as:

- The CDC recommends the use of cloth face coverings and practice physical distancing to help slow the spread of COVID-19
- Avoid close contact with people who are sick and avoid touching your eyes, nose, and mouth with unwashed hands
- Wash your hands often with soap and water for at least 20 seconds.
- Use alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.
- Individuals should remain self-isolated 3 days after no more fever, and all symptoms are gone + 7 days since the onset.
- CDC COVID-19 symptom self-checker: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>
