## 4. Important Information and Safety Briefing

- There is currently no vaccine to protect against, and no specific antiviral treatment for, COVID-19.
- The virus is mainly spread through respiratory droplets (coughing, sneezing...).
- It CAN survive on surfaces for a short period and can be spread by asymptomatic hosts or 2 days prior to symptoms.
- There are not enough tests to check everybody, nor is there a need for everyone to be seen or tested for mild symptoms.

A Major Disaster Declaration has been declared / approved for Virginia (DR-412): <https://www.fema.gov/disaster/4512>

CDC has identified Virginia as a state with wide-spread community transmission.

On July 29, Governor Ralph Northam released [Executive Order 68](#) for new actions to mitigate the spread of COVID-19 in the Hampton Roads region which had seen an increase in new cases, hospitalizations, and positive tests. On July 31, the following restrictions commenced and will remain in effect until amended or rescinded by the Governor.:

- Prohibit the on-site sale, consumption, and possession of alcohol after 10 p.m. in any restaurant, dining establishment, food court, brewery, microbrewery, distillery, winery, or tasting room.

- Indoor dining in these establishments is limited to 50 percent capacity.
- Public and private in-person gatherings over 50 people is prohibited.

Governor Ralph Northam's [Executive Order 63, requiring face coverings while inside buildings](#), is still in effect.

Virginia Department of Health (VDH) launched a new app as part of its effort to mitigate the spread of COVID-19. [COVIDWISE is the VDH COVID-19 exposure notification app](#) to facilitate contact tracing in response to the coronavirus that causes COVID-19. Contact tracing is a technique used by public health authorities to contact and give guidance to anyone who may have been exposed to a person who has tested positive for COVID-19. For more information, visit [vdh.virginia.gov/](http://vdh.virginia.gov/)

Safety precautions to take include physical distancing and especially practicing regular good hygiene habits such as:

- The CDC recommends the use of cloth face coverings and practice physical distancing to help slow the spread of COVID-19
- Avoid close contact with people who are sick and avoid touching your eyes, nose, and mouth with unwashed hands
- Wash your hands often with soap and water for at least 20 seconds.
- Use alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.
- Individuals should remain self-isolated 3 days after no more fever, and all symptoms are gone + 7 days since the onset.
- CDC COVID-19 symptom self-checker: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>
