4. Important Information and Safety Briefing

- There is currently no vaccine to protect against, and no specific antiviral treatment for, COVID-19.
- The virus is mainly spread through respiratory droplets (coughing, sneezing...).
- It CAN survive on surfaces for a short period and can be spread by asymptomatic hosts or 2 days prior to symptoms.
- There are not enough tests to check everybody, nor is there a need for everyone to be seen or tested for mild symptoms.

A Major Disaster Declaration has been [declared / approved for Virginia \(DR-412\)](#).

CDC has identified Virginia as a state with wide-spread community transmission.

Governor Ralph Northam's [Executive Order 63, requiring face coverings while inside buildings](#), is still in effect.

Currently, most city buildings are closed to the public with only mission-critical staff reporting. Starting Tuesday, November 2, City Hall will be open for appointments only. Those who wish to do conduct business in City Hall must make an appointment in advance. No walk-ins will be allowed. Members of the public who visit City Hall for their appointment will have to follow the City's strict COVID-19 protocols such as wearing a face covering and answering a COVID health questionnaire.

In addition to the new operations at City Hall, three neighborhood library branches and three indoor pools will reopen to the public November 2. The branches provide the same Grab and Go service at the other libraries and appointments will be required to use the pools. [Click here to find more information on the New Operations for Libraries and Recreation Centers](#)

Protect Your Health This Flu Season. The CDC and VDH both recommend receiving a flu vaccination. Due to Covid-19 restrictions, the city will not have on-site flu shot clinics this year for city employees. We encourage all employees to get a flu shot this season from their primary care physician or any participating pharmacy. [Click here to find flu vaccine locations](#).

Safety precautions to take include physical distancing and especially practicing regular good hygiene habits such as:

- The CDC recommends the use of cloth face coverings and practice physical distancing to help slow the spread of COVID-19.
- Avoid close contact with people who are sick and avoid touching your eyes, nose, and mouth with unwashed hands.
- Wash your hands often with soap and water for at least 20 seconds.
- Cover your mouth and nose when coughing or sneezing.
- Use alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.
- Individuals should remain self-isolated 3 days after no more fever, and all symptoms are gone + 7 days since the onset.
- Monitor Your Health Daily. Be alert for symptoms. Watch for fever, cough, shortness of breath, or [other symptoms](#) of COVID-19

Continue sending any outstanding resource needs to the Logistics Chief via the COVID Recovery Data Collection Tool.
