Water Main Replacement and Sewer Repair on McNeal Avenue

February 3, 2021

The City of Norfolk's Department of Utilities has hired Tidewater Utilities, Inc to replace a deteriorating water main on McNeal Avenue from East Princess Anne Road to the end of the cul-de-sac, and to repair the sewer main from 1409 to 1401 McNeal Avenue. The project area is shown on the map on the back.

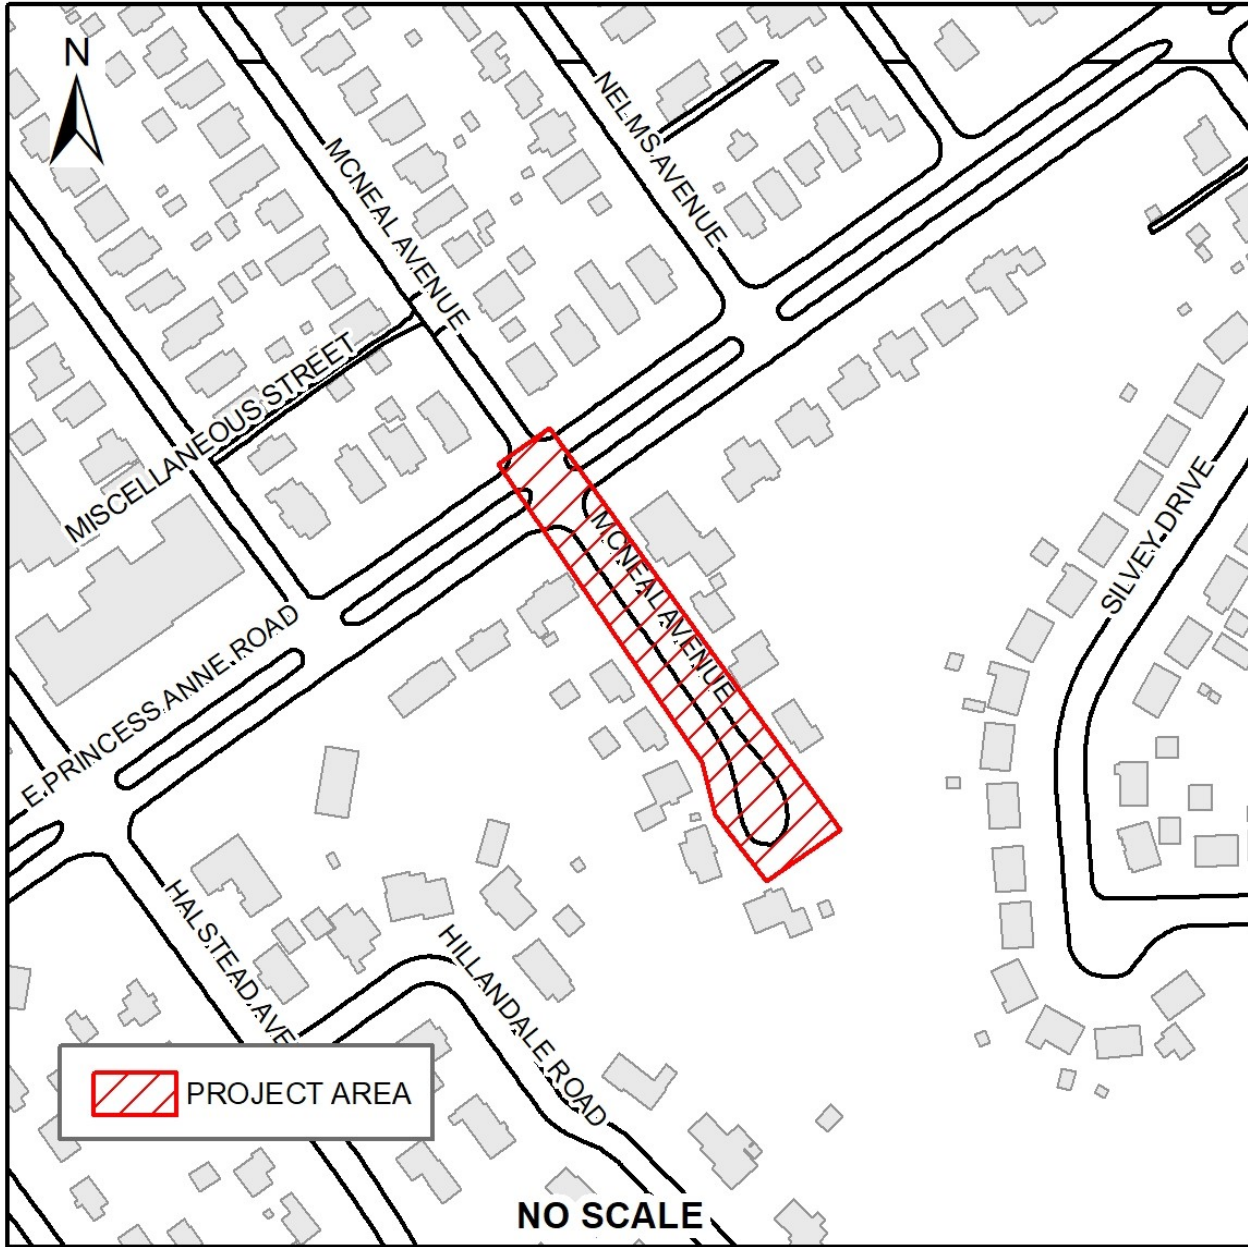

Planned Start of Construction: February, 2021

Anticipated End of Construction: April, 2021

Access: Access to residences will be maintained, but on-street parking may be closed temporarily.

Additional Impacts: While water services will be maintained during construction, they may be impacted for a few hours as service lines are connected into the new main. We will provide notice in advance. There should be no impact on sewer services.

The City and our Contractor will do our best to minimize the unavoidable disruptions associated with the construction. If at any time you have questions or concerns, please do not hesitate to contact the City Inspector, Rhonda Wyda at 757-651-8433 or Rhonda.Wyda@norfolk.gov or the Project Manager, Lisa Bass, at 757-274-8027 or Lisa.Bass@norfolk.gov.
