

# Pumpkin Feeder

Source: Audobon.org

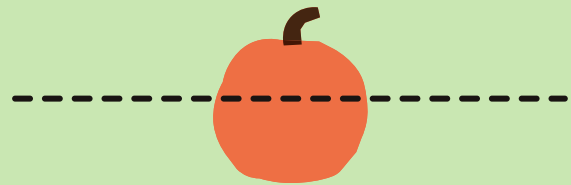

## Materials

- **Small to medium sized pumpkins**
- **Small sticks**
- **Twine or rope**
- **Birdseed**

# 1

**Cut pumpkin in half and scoop out seeds, leaving a hollow inside with 1/2 inch thick shell wall**

# 2

**Insert two sticks across the open pumpkins to create perches for the birds**

# 3

**Fill with birdseed**

# Plastic Bottle Feeder

Source: Instructables.com

## Materials

- Plastic bottle
- Two sticks
- Scissors
- Twine
- Pin
- Funnel
- Bird seed

**1** Make two holes at the bottom of the bottle for drainage, making them with a pin then widening with scissors

**2** Make two small holes near the bottle neck and thread twine through to make a loop to hang it.

**3** Make two holes across from each other toward the bottom for a stick that will be the perch. Do the same slightly above that one so they make an X.

**4** Make two holes above the perches about 1/2 inch square so the seed doesn't fall out, for the birds to eat out of.

**5** Fill with birdseed using the funnel, and hang!

# Pine Cone Bird Feeder

Source: One Little Project

## Materials

- Large pine cones
- Peanut butter or honey
- Twine
- Birdseed

# 1

**Cut a piece of twine about 10 inches long and tie it to the top of your pine cone, then tie the ends together to make a loop to hang it.**

# 2

**Spread peanut butter or drizzle honey onto the pinecone scales**

# 3

**Dip and roll pine cone into bird seed, making sure to coat it completely**
