## Five Points Water and Sewer Replacements

**November 8, 2021**

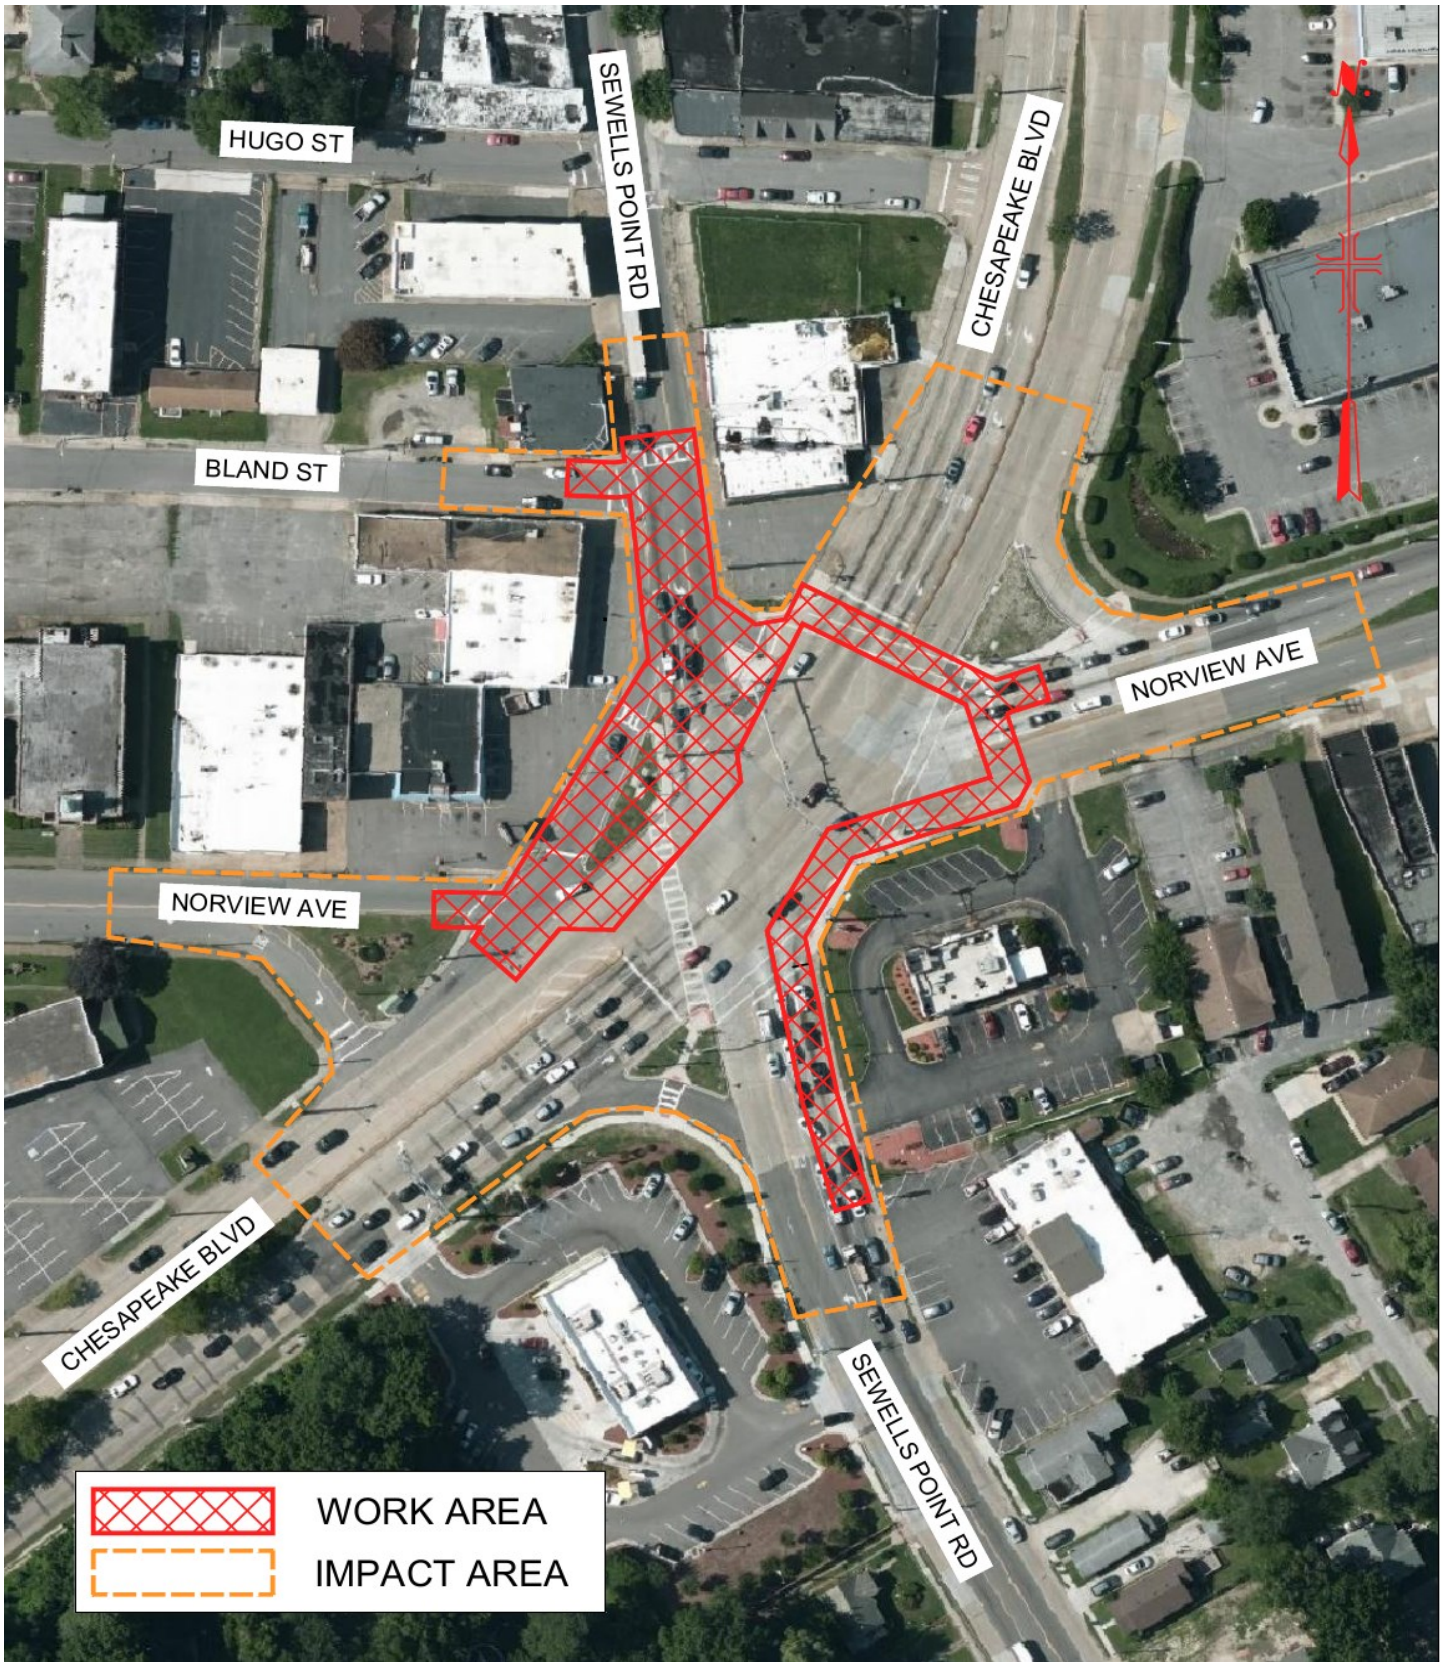

The City of Norfolk's Department of Utilities has scheduled construction to replace aging water and sanitary sewer infrastructure along Chesapeake Boulevard at Five Points. The project (area shown on the map on the back) will include the replacement of sanitary sewer mains and water mains. The Department of Utilities contractor will work 7 a.m. to 7 p.m. with some nights and weekends.

**Planned Start of Construction:** November 9, 2021  
**Anticipated End of Construction:** January 2022  
**Contractor:** Bridgeman Civil, Inc.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction. If you have any questions regarding this project, please do not hesitate to contact the city's on-site construction inspector, Renante Hunter at (757) 805-7755. You may also contact the project manager, Forrest Robertson at (757) 681-4028. This project will be followed by the Five Points Road Resurfacing project, managed by Public Works.

We continue to work closely with the contractor to complete the work quickly while minimizing adverse impacts to the community.
