Meadowbrook Neighborhood Sewer Replacement Design

1/31/2022

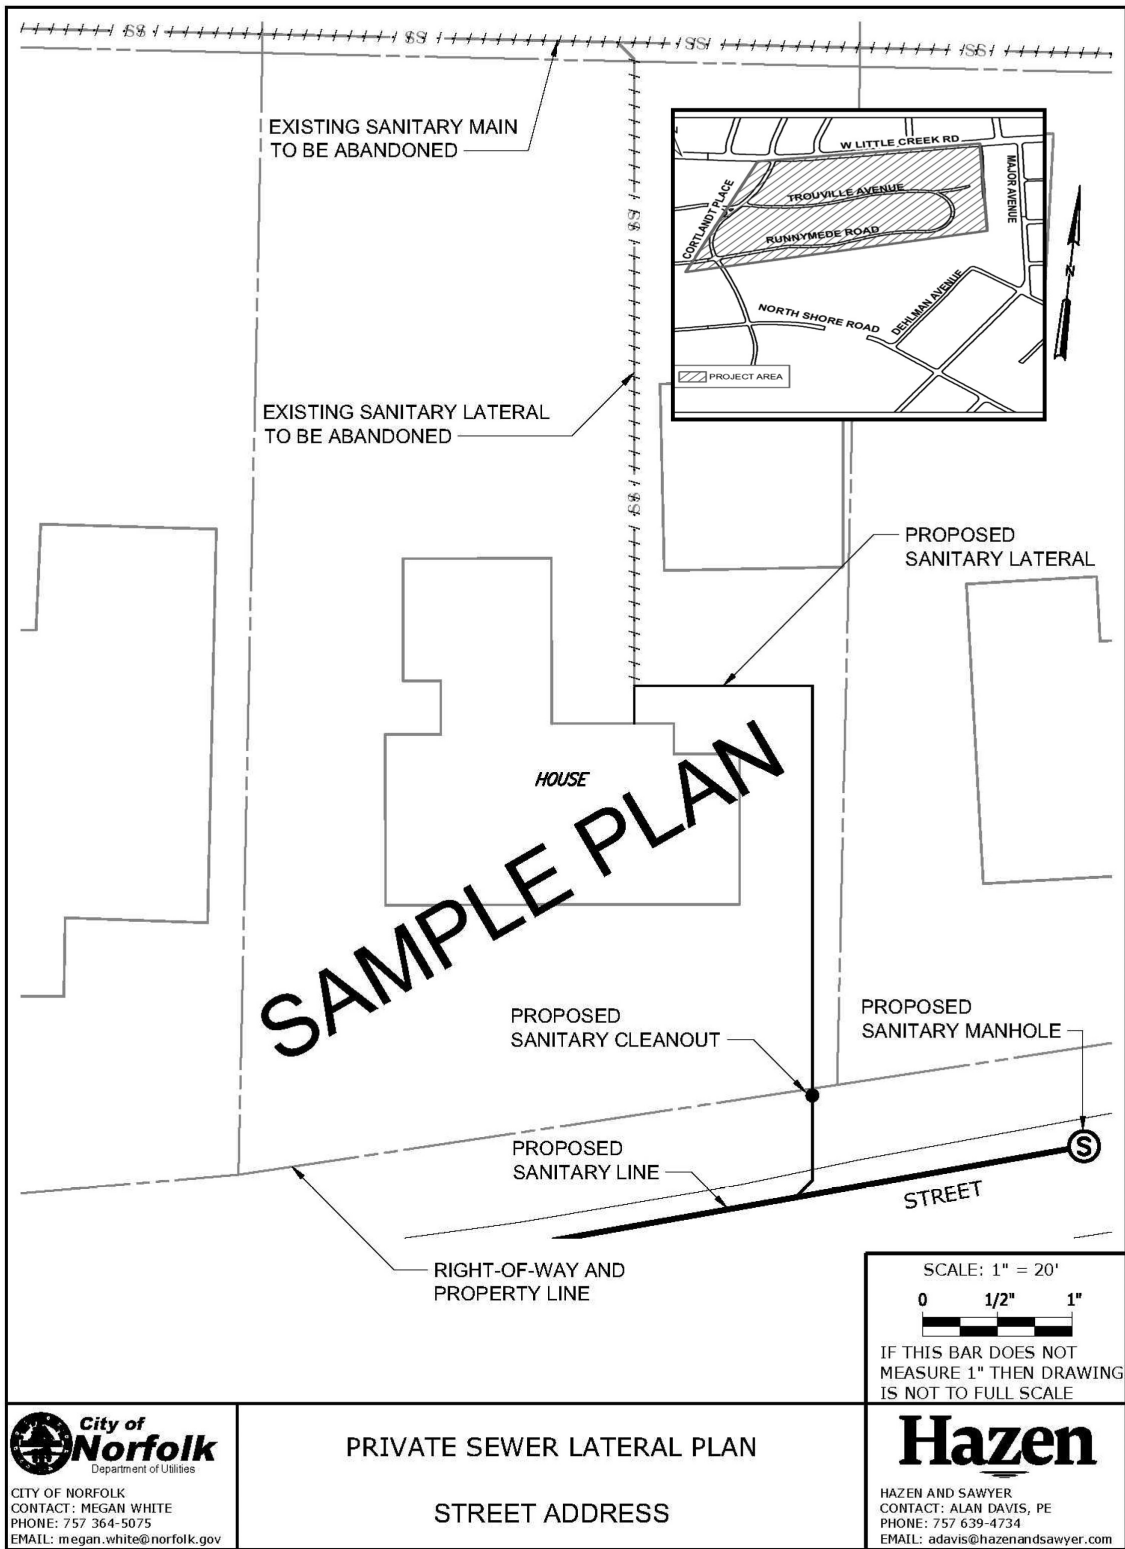

The City of Norfolk's Department of Utilities is now in the design phase of the upcoming sewer replacement project. Your property has been identified as one of the locations requiring a plumbing turnaround. Your home is currently connected to a backyard sewer pipe that will be abandoned with this project. Therefore, we will need to relocate your existing sewer connection and establish a new connection to the sewer pipe that will be installed in the right-of-way.

Over the next few weeks, a representative of Department of Utilities and design consultant, Hazen & Sawyer, will be visiting the neighborhood to look at your property and identify the best route for the new sewer connection. The actual construction work will be accomplished at a later date, under the City contract and at the City's expense. You will receive a separate notice in advance of any construction activity related to this project.

We ask that you sign and return the enclosed right-of-entry form, which will give the City permission to enter onto your property. The form may be emailed to **Megan.white@norfolk.gov** or completed online at: **<http://www.norfolk.gov/meadowbrook>**.

You are not required to be present. However, if you would like to be present or have questions or concerns, please do not hesitate to contact the project manager, Megan White, at 757-364-5075 or Megan.white@norfolk.gov.

Visit www.norfolk.gov/utilitiesimprovements for more information.
