

Park Ave. / Corprew Ave. Pedestrian Crossing Improvements

Location

Intersection of Park Avenue and Corprew Avenue.

Project Benefits

This project will improve safety for pedestrians crossing at Park Avenue & Corprew Avenue. Intersection improvements include replacement of existing signal control cabinet and pedestrian improvements include new pedestrian signals, crosswalks, and ADA ramps.

Scope of Work

- Install countdown pedestrian signals and push buttons.
- Install new ADA ramps and Norfolk standard crosswalks.
- Replace the old 336 control cabinet with the new 332S control cabinet.

Project Status

Under construction, 90% completed ([Design plan](#))

Project Schedule

- Pending schedule for rerouting fiber optic cable to the new control cabinet.
- Pavement marking anticipated to start Winter 2023
- Anticipated construction completion: Winter 2023
