

Llewellyn Avenue and W. Princess Anne Road Intersection Improvement (UPC 113750)

Location

Llewellyn Avenue and W. Princess Anne Road Intersection

Project Benefits

This project will provide improved pedestrian accommodations at the intersection of Llewellyn Avenue/West Princess Anne Road.

Scope of Work

This project will include modifications to existing signal system adding pedestrian push buttons and crosswalk signals on all four quadrants of the intersection. Also, it will include placement of new and/or modified ADA curb ramps with detectable warning surface.

Construction Impacts

- Temporary lane closures will be required.
- Pedestrian detours will provide safe passage for pedestrians through the intersection.

Civic Engagement

- Ward 2 (Councilwoman Courtney R. Doyle)
- Superward 6 (Councilwoman Andria P. McClellan)
