

Ballentine Boulevard at I-264 Lane Improvements (UPC 115235)

Location

Ballentine Boulevard at I-264

Project Benefits

The project will upgrade pedestrian safety accommodations and mitigate congestion along Ballentine Boulevard.

Scope of Work

This project will realign and lengthen the southbound Ballentine Boulevard right turn lane at the interchange of Ballentine Boulevard and the I-264 westbound on-ramp. The extension will increase capacity at this complex interchange involving the interstate, Tide LRT crossing, and City streets.

Project Status

Under development

Project Schedule

- Design Start: Winter 2024
- Construction Start: Summer 2026
- Project Completion: Winter 2028

Project Funding

SMART SCALE Funding Program
100% Fully Funded
\$ 1,067,388.00

Construction Impacts

- Temporary lane closures will be required.
- Pedestrian detours will provide safe passage for students and the public.

Civic Engagement

- Ward 4 (Councilwoman Mamie B. Johnson)
- Superward 7 (Councilwoman Danica J. Royster)
