

SHORE DRIVE BRIDGE

REHABILITATION OVER LITTLE CREEK

PROJECT INFORMATION

The Shore Drive bridge is undergoing rehabilitation to repair structural elements, install an epoxy overlay, waterproofing, and other repairs. The project will repair and protect concrete elements and extend the useful life of the bridge.

SCOPE OF WORK

Repair concrete spalls, cracks, and delaminations in the bridge superstructure
Install an epoxy deck overlay
Apply waterproofing sealant to concrete elements
New lane striping

PROJECT STATUS:

Construction

PROJECT SCHEDULE

Start Date: June 19, 2025

Completion Date: Early 2026

PROJECT COST

\$1,000,000

CONSTRUCTION/TRAFFIC IMPACTS

- Initial work will take place at night from 7pm-7am for the next couple of weeks. Then, Construction will take place Monday—Friday from 7:00am to 5:00pm; Occasional weekend work may be scheduled.
- The nighttime work will include cleaning and painting the railing system and the light poles. The paint needs to be applied in cooler temperatures, which can be achieved at night. The work activity will not generate a lot of noise.
- Single lane closure on bridge. Maximum open lane width 11'-0." The contractor will be starting on the Northbound side and then moving to the Southbound side.
- There will be a single sidewalk closure that will remain up during the day.
- Motorists should expect alternating lane closures.
- Message boards will be displayed at least a week before the start of construction, announcing traffic pattern changes ahead of time.
