

Terminal Boulevard at Diven Street Safety Improvements

Location

Terminal Boulevard at Diven Street Intersection

Project Benefits

The project will provide pedestrian safety improvements at the intersection of Terminal Blvd and Diven Street.

Scope of Work

A dedicated right turn lane will be added to the project that will reconfigure lane assignments to reduce traffic queues and provide better turning movements for vehicles. New sidewalk will be extended from the intersection of Terminal Boulevard along the east side of Diven Street to connect with existing sidewalk.

Project Status

Under design

Project Schedule

- Design Start: Fall 2024
- Construction Start: Late 2026
- Project Completion: Fall 2027

Project Funding

SMART SCALE Funding Program
100% Fully Funded
1,732,600

Construction Impacts

- Temporary lane closures will be required.
- Pedestrian detours will provide safe passage for the road users.

Civic Engagement

- Ward 1 (Councilman Martin A. Thomas, Jr.)
- Super Ward 7 (Councilwoman Danica J. Royster)
